ELIGIBLE APPLICANTS THROUGH APPASSIST®

Will your client qualify for APPcelerate automated underwriting?

Use this guide to help you determine if your client might qualify for lightning-fast, lab-free underwriting through APPcelerate, a feature of AppAssist. It's best not to set the expectation that qualification is automatic, and stress to your client that full underwriting may be required after the telephone interview. Many factors are taken into consideration during the client interview, including scores from third-party data sources, as well as medical and personal histories. The below lifestyle factors may have an adverse impact on determining an applicant's eligibility. While one or two of these circumstances usually has no effect, cumulatively they may negatively impact risk classification. This may lower an underwriting offer by one class, or cause an applicant to be ineligible for APPcelerate.

Automated checks run during the AppAssist interview:

- Identity verification
- Medical Information Bureau (MIB)
- Motor Vehicle Reports (MVR)
- Prescription history check
- FCRA consumer database check

Lifestyle factors to keep in mind:

- Home ownership
- Level of education
- High amounts of debt or delinquent debt
- Evictions
- Criminal History
- Low credit scores
